

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

We find the total demands against the Treasury are \$1,532,278.00, and the balance in the Treasury is \$1,757,933.21, an amount sufficient to pay all demands against it and leave a surplus of \$225,655.21.

Under the provisions of Act No. 200, laws of 1863, the entire surplus funds have been kept on deposit in the banks of the State, excepting an amount necessary for the current business and immediate disbursements of the department, and on which interest has been paid to the amount hereinafter set forth.

BONDED DEBT.

I have paid during the year one war bounty loan bond, due May 1st, 1890.....	\$1,000 00
And three adjusted bonds due January 1st, 1863.....	3,000 00
This leaves the State debt as follows:

The amount paid for interest on the bonded debt during the year is as follows:

Specific Taxes.....	818 93
United States 4½ per cent Bonds.....	13,500 00
Total.....	<u>\$74,771 53</u>

Making a difference of \$17,939.70 which the State has received in interest more than it has paid.

SINKING FUND.

The condition of the Sinking Fund is shown as follows:

Balance Sept. 30th, 1881.....	\$589,000 00
United States Bonds 4½ per cent.....	300,000 00

Total.....	<u>\$889,000 00</u>

The \$300,000.00 United States 4½ per cent Bonds, technically under the control of the Board of Fund Commissioners, is not shown in the Ledger account of the Sinking Fund, and does not therefore appear in the cash balance.

TRUST FUND DEBT.

The Trust Debt of the State is composed of Funds and amounts set apart by law for educational purposes, and must remain a perpetual debt, on which the State as the trustee of these institutions will pay interest for all time to come. It is as follows:

Primary School Fund.....	\$2,924,325 17

On the above the State pays interest at the rate of seven per cent per annum on the Primary School Fund, University Fund, and Agricultural College Fund, five per cent on the Primary School five per cent Fund, and six per cent on the Normal School Fund. The following table shows the amount of interest computed on each Fund, and paid from Specific Tax Fund during the fiscal year.

From the foregoing exhibit, showing the present financial condition of our State, there will be found, I trust, many things that will be highly satisfactory and gratifying to our people.

The entire amount of money necessary for the full payment of our State indebtedness is provided and set apart in the sinking fund, ready to be applied as rapidly as the surrender of the bonds can be procured. The total bonded indebtedness of the State now outstanding is \$900,149.97, classed as follows: \$590,000.00 unpaid balance of the six per cent Two-Million Loan Bonds, all of which mature on the 1st day of January, 1883, and which will doubtless all be paid and cancelled before the close of the present calendar year. There is yet outstanding of the issue known as the seven per cent War Loan Bonds, \$298,000.00, which will not mature until May 1st, 1890, to meet the payment of which there is now in the Treasury \$300,000.00 in U. S. 4½ per cent Bonds.

There is yet unpaid of the Five-Million Loan Bonds, at their adjusted value, the sum of \$12,149.97, which by provisions of law are payable from the General Fund if ever presented for payment; but the supposition is that they are either lost or destroyed, and will never be presented.

Since my last report but little progress has been possible in the purchasing of the unmatured Bonds of the State, for the reason that the country has been so full of idle money, millions of which has been seeking investment at almost any rate of interest, and which has caused our bonds to be held at so high rates of premium that it has been impracticable to buy them in.

It was a great mistake that the State did not embody in its form of Bond an option, by which it could have retired its indebtedness at a much earlier day, if the financial condition of the State would have permitted it, and would at the same time have secured the benefits of a more extended term if the necessities of the State required it. Such a bond, I have no doubt, could have been placed quite as readily at the time our indebtedness was created, as the bond used, and as matters have developed would have saved many thousand dollars to the State. By reason of the absence of such conditions in the bonds nearly a million dollars have been locked in the Sinking Fund for more than two years, awaiting the maturity of the State's indebtedness. These moneys having been placed to the credit of the Sinking Fund, in obedience to the provisions of Section 1, Article 14, of the Constitution, could not be legally used for any other purpose than paying the bonded indebtedness; unless they could be classed as surplus funds under the provisions of Act No. 200, Session Laws of 1863, and subject to deposit as therein provided. Believing that such construction would be most in accord with true business principles, I have kept the moneys so placed in the Sinking Fund, in common with the unemployed surplus in the General Fund, closely deposited in the banks of the State, subject to call at any moment, thoroughly secured by responsible guarantors, and from which the State has realized, during my four years of official management, the following sums of interest, to wit: For the year 1879, \$44,759.53; in 1880, \$52,903.59; in 1881, \$63,475.78; and in 1882, 74,771.53, or an aggregate for the four years of \$235,910.43.

It has been my policy to keep the surplus moneys deposited in the banks of our own State, and as evenly distributed as circumstances would permit, that our own people might reap whatever benefits might accrue therefrom.

In my former reports I have called attention to the provisions of Section 1, Article 14, of the Constitution, which circumscribes and directs the application of the moneys received from specific taxes, and to which I would again respectfully refer. Now that the money necessary for paying the bonded debt is provided, the provisions of the constitution referred to direct that all moneys received from specific taxes, excepting those received from mines in the Upper Peninsula, shall be applied wholly to educational purposes in the manner following, to wit: First, in the payment of the interest upon Educational Trust Funds; second, the balance shall be added to and constitute a part of the Primary School Interest Fund.

It is not my intention in again calling attention to this matter to argue in favor of withdrawing from our schools one farthing from the largest possible sum which can be safely and profitably used in their support, for no one can have a higher appreciation of the blessings and sacred office of our public schools than myself. But it is admitted by our best educators that an absolutely free system of schools is not productive of the highest results in educa-

tion, as it relieves the tax-payers and patrons of the schools from the necessity for that constant and active supervision of the financial and business management of the affairs of the district which is so necessary in securing and maintaining the efficiency of the schools.

It is possible that the large sums accruing from specific taxes (which amounted to the sum of one dollar and twenty-four cents per capita, with the interest upon the school fund in 1882, for every child of school age within the State), can be disbursed without endangering the efficiency of our schools. But as these moneys, which must largely increase in amount from year to year, are wholly controlled by constitutional provisions, there can be no relief only through an amendment of that instrument, which I think should be effected at an early day, and the whole matter placed under control of the Legislature.

Since my last report, the remainder of the personal property belonging to the St. Mary's Falls Ship Canal has been sold and the proceeds placed to the credit of the canal fund, making a final balance in that fund of \$68,924.12. All business pertaining to the management of the canal on the part of the State has ceased, and the moneys in the fund remain in the State Treasury under the provisions of Act No. 17, Session Laws 1881, the State acting simply as Trustee.

In conclusion, permit me to say, that during the past four years of my official term there has been received at this department, including the amount on hand at the commencement of the term, \$10,942,847.54, and of which there has been disbursed the sum of \$9,184,914.33. And it affords me great satisfaction to be able to state that the large sums represented by these aggregates have been received, managed, and disbursed with the results above stated, without the loss of one cent.

The duties of the department, though largely increased in volume, have been promptly, and as I believe acceptably performed without the necessity of increased clerical force. This has been accomplished through the earnest and faithful services of the regular force of employés, which deserves special recognition.

All of which is respectfully submitted.

BENJ. D. PRITCHARD,
State Treasurer.

Treasurer of the State of Michigan in Account with the State of Michigan..
